

## **VENDOR INSPECTION SERVICES**

**INSPECTION® CAN PROVIDE SERVICES TO INSPECT ITEMS AT THEIR PLACE OF MANUFACTURE BEFORE DELIVERY IN ORDER TO DETERMINE WHETHER A PRODUCT, SERVICE, PROCESS, PIECE OF EQUIPMENT OR INSTALLATION COMPLIES WITH EXPRESSED NEEDS, CUSTOMER EXPECTATIONS, APPLICABLE REGULATIONS OR OTHER SPECIFIC REQUIREMENTS.**

Vendor Inspection ensures full compliance during the manufacturing stage of all high value equipment and plants including: pumps, pipes, vessels and valves. Requirements at each stage of the client's purchase order are fully satisfied before the material / equipment leaves the suppliers premises, resulting in minimum potential for production outages and the subsequent threat to safety, asset integrity and legislative compliance.

### **QUALITY MANAGEMENT THROUGHOUT PROCESS**

The quality of materials, services and merchandise are essential elements within the success of any project throughout world.

At INSPECTION® we provide our clients with the flexibility to respond to any or all of their quality requirements throughout world with highest potential standards of service and integrity.

**INSPECTION®**

### **Our inspectors work with vendors to satisfy a range of necessities, including:**

- Review of welding procedure specifications and welding operators' qualifications, to make sure client and "Code" compliance
- Inspection of sub-assemblies and finished item for appearance, accomplishment, dimensions, surface conditions, and operability
- Witnessing of any of all needed tests to confirm strict compliance to approved drawings, procedures, and specification
- Final inspections before dispatch which can embody cleanup, coating, packing and marking of apparatus, review of vendor final documentation written record.
